

4H

YAKIMA MightyMounts

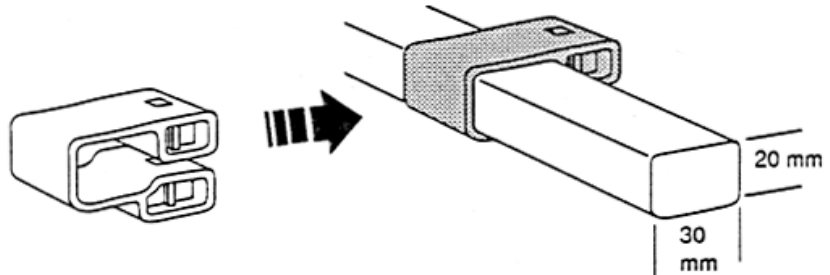

Contents: Four MightyMounts

CHECK THE YAKIMA FIT LIST TO MAKE SURE YOU HAVE THE CORRECT MIGHTYMOUNTS FOR YOUR SPECIFIC ROOF RACK

Yakima MightyMounts are specially designed versions of the Yakima SnapAround that attach to Factory-Installed roof racks and other non-Yakima rack systems.

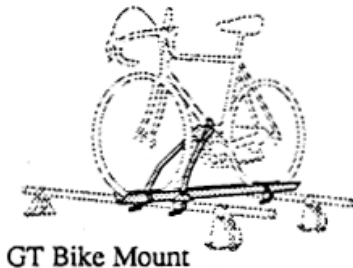

INSTALLATION

Spread the MightyMount apart and snap it around the crossbar. Be sure it fits the contour of the crossbar correctly:

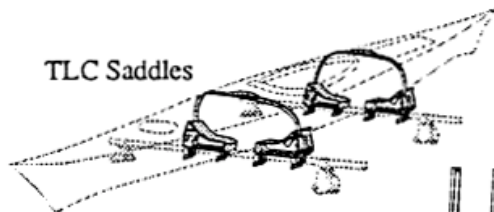

ACCESSORIES

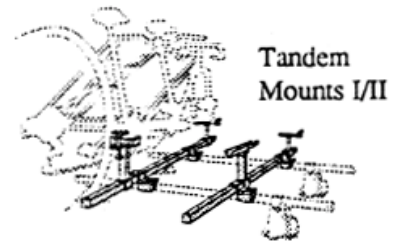

4H MightyMounts allow the installation of these Yakima accessories on Thule, Terzo, and other racks with European standard crossbar dimensions of 20 x 30 mm:

GT Bike Mount

TLC Saddles

Tandem Mounts I/II

BasketCase

LightBar Bracket

Wheelfork

Fairing (metal brackets may need slight bending)

IMPORTANT

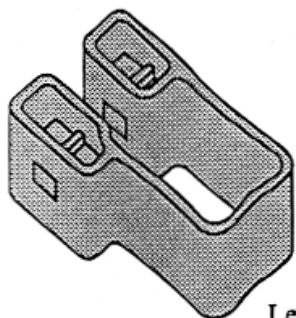

- When installing Yakima accessories be sure to follow our instructions, and substitute the MightyMounts for the round bar SnapArounds that come with those accessories.
- Follow all advice and cautions supplied with your Yakima products.

•The Yakima limited warranty covers only Yakima products and does not apply to other roof racks or accessories.

- Verify the crossbar spread required for the accessories you are installing. Your Yakima dealer, the Yakima Fit List and the Yakima catalog have this information.
- Do not exceed the manufacturer's recommended weight and load limits of your roof rack.

4H

YAKIMA MightyMounts

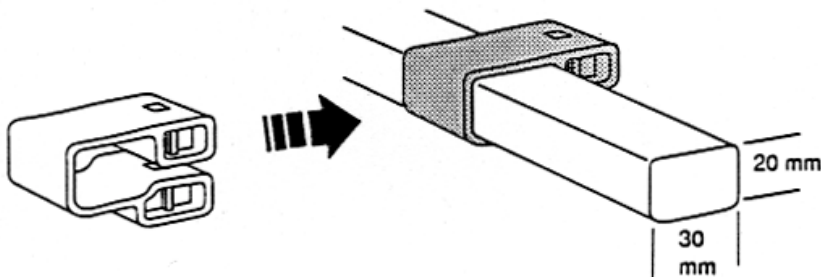

Contenu: 4 MightyMounts

Consultez le Yakima Fit List pour être certain que vous avez les MightyMounts corrects pour vos supports particuliers.

Les Yakima MightyMounts sont des versions spécialement dessinées de Yakima SnapAround qui attachent aux porte-bagages installés par l'usine et aux autres supports non-Yakimas.

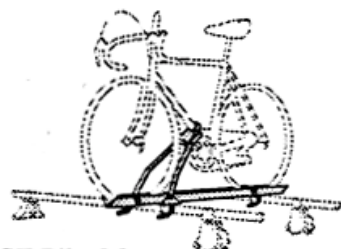

INSTALLATION

Étalez le MightyMount à part et placez-le autour de la barre transversale. Soyez certain qu'il embôîte correctement le contour de la barre transversale:

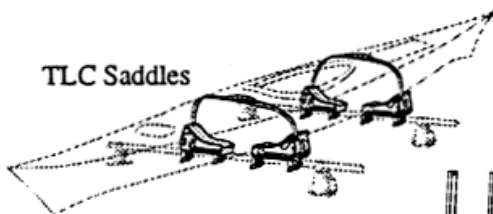

ACCESSOIRES

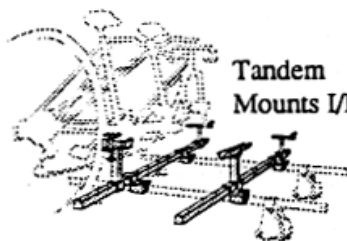

4V MightyMounts permettent l'installation de ces accessoires Yakima sur Thule, Terzo, et des autres supports avec les dimensions des barres transversales de 20 x 30 mm:

GT Bike Mount

TLC Saddles

Tandem Mounts I/II

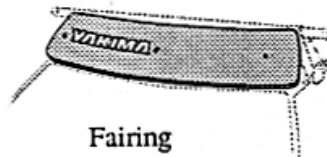

BasketCase & StretchNet

LightBar Bracket

Wheelfork

Fairing

IMPORTANT

•En installant les accessoires Yakima suivez soigneusement nos instructions et substituez les MightyMounts pour les Snap-Arounds à la barre arrondie qui accompagnent ces accessoires.
•Vérifiez l'espace requis entre les barres transversales pour les accessoires que nous installons. Votre détaillant Yakima, le Fit List, et le catalogue Yakima ont cette information.

•Suivez tous les conseils et les avertissements qui sont fournis avec vos produits Yakima.
•N'exécutez pas les limites de charge recommandées de vos supports ou de votre porte-bagages.
•La garantie limitée Yakima ne couvre que les produits Yakima, et ne s'applique pas aux autres porte-bagages ou accessoires.
